

The government is connecting all counties with fibre-optic cable and is committed to making Catalonia a **structurally integrated territory** with digital infrastructure and **smart cities**

€ 16.5 M

allocated by the Catalan government for deployment

382 km

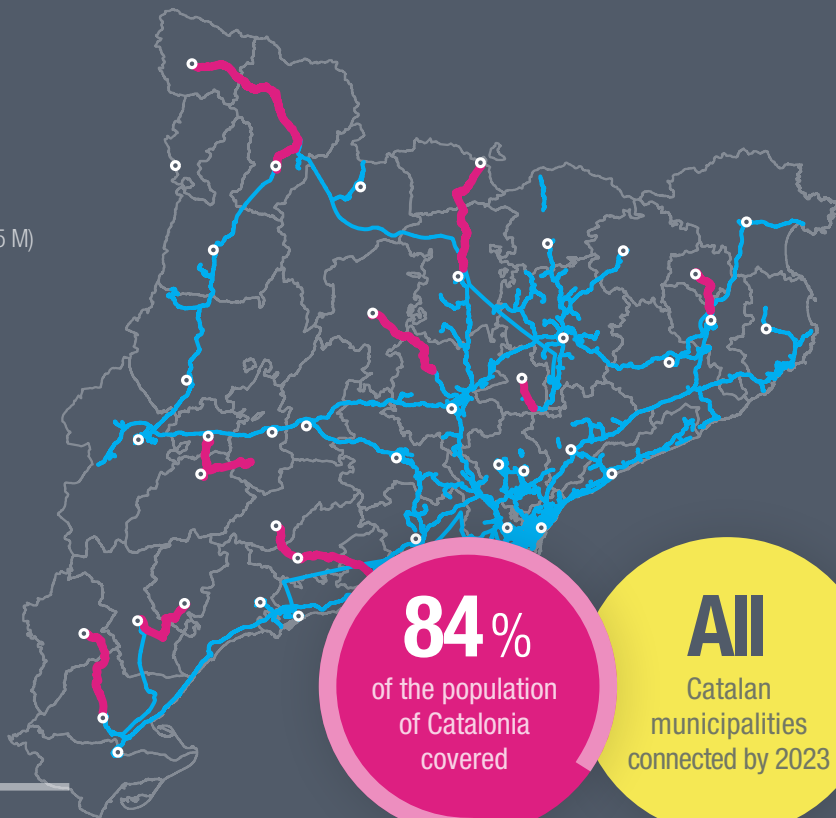

of new fibre-optic cable

6.4 million

people connected

- **El Vendrell, Valls and Montblanc:** 91 km (over €2.5 M)
- **Vielha:** 64 km (€2 M)
- **Sort:** 16 km (€646,000)
- **Puigcerdà:** 43 km (€2 M)
- **Solsona:** 36 km (€1.8 M)
- **Gandesa:** 36 km (€1.5 M)
- **Les Borges Blanques:** 35 km (over €1 M)
- **Falset:** 31 km (nearly €1.4 M)
- **Banyoles:** 19 km (€1.3 M)
- **Moià:** 11 km (€500,000)
- **Pont de Suert:** The government will work on connecting the municipality in 2020

By providing access to a neutral fibre-optic network, the government is supporting:

Territorial cohesion

Equality of opportunity throughout Catalonia

A strong economic fabric throughout the territory

Economic and social progress

Efforts to actively combat depopulation
