

Measures to Confront the Second Wave of COVID-19

#Vicepresident @perearagones

"We are facing difficult times, and we must act today to avoid a lockdown in the coming weeks. Today, figures are very worrying: the risk of outbreak is at 362.16 points and the rate of infection is 1.37"

#Spokesperson @meritxellbudo

"We are convinced that the adoption of severe measures will contain the spread of COVID-19 and these measures are similar to those taken in other countries"

Mobility outside the residence should be limited as much as possible.

Telework when possible.

Meetings and gatherings of more than 6 people are still prohibited.

Beauty treatment services are prohibited, except for hairdressing services.

Max. 30% of the total capacity is allowed per license or authorization of the activity.
